

IEEE Malaysia Section Newsletter IEEE Sarawak Subsection

Reported by Pan Zheng
panzheng@ieee.org

It has been a very happening season for IEEE Sarawak in later 2017. There were many events and activities organised by the Subsection including membership drive, workshops, competitions, robot building bootcamp. We also proudly formed IEEE Swinburne Sarawak Student Branch, the only IEEE student branch in Kuching.

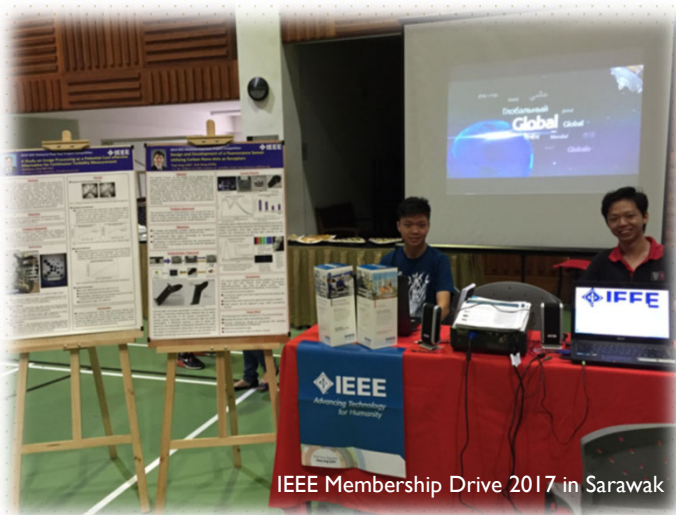

Young Innovate Kuching - Technical Sponsor

Young Innovate Challenge is an annual STEM competition for secondary school students. It was held on 8 July 2017, and technically sponsored by IEEE Sarawak for the second time. IEEE members joined the event as panel judges to evaluate the students' work.

IEEE Members played roles of judge in Young Innovate Kuching

IEEE Sarawak also took the opportunity to conduct a membership drive in the event of Young Innovate 2017.

IEEE Membership Drive 2017 in Sarawak

IEEEExtrem in Sarawak

IEEEExtrem programming competition 2017 was held on 14 Oct 2017. There were 3 teams from Swinburne University of Technology Sarawak Campus participating this event. All the participants worked very hard on the problems. Our Sarawak teams eventually earned the 4th, 5th and 6th position in the country.

The result of the IEEEExtrem 2017 Malaysia can be found [here](#)

Student Members Competed in IEEEExtrem

IEEE Smart Village Workshop in Sarawak

This was the first IEEE Smart Village workshop in Sarawak initiated by the IEEE Sarawak. It was our honour to have the renowned expert Dr. Robin Podmore to share his vision and initiative on the topic.

Dr. Robin Podmore gave the talk of Smart Village
